

# Retro® Parking Sign Post

The Retro® Parking Sign Post is a *Highly visible, Highly Flexible* sign post that can be fitted to existing socket mount infrastructure. The unique **Retro® Hinge** design ensures that these posts return to an upright position in the event of collision and the tough PVC post reduces the risk of damage to vehicles.

## Features & Benefits:

- ⦿ can be cut down to length to suit specific site requirements
- ⦿ can be fitted into existing socket mount infrastructure
- ⦿ features a heavy duty flexible rubber hinge which ensures the post returns to an upright position after collision
- ⦿ is manufactured with a durable high pressure PVC material which is vehicle friendly
- ⦿ is available in a clean white finish

*A selection of parking sign blades are available on request.*

Utilises existing sockets

The Retro® Parking Sign Post slots easily into existing socket mount infrastructure ...
